Subject: Topic: Child Support

I Would Like To Propose A Better Cost Saving For The Child Support Issues. I Propose A Certain Percent Base On A Hourly Rate..

Here's What I Mean (Just A Example)

Non-custodial parent working from 30 - 60 hours a week

a) If This Parent Works Only 30 Hours A Week, With The Take Home Amount Of \$500.00

Let's Say The Percent Is 18% For This Non-Custodial Parent, That Would Give The Custodial Parent A Check For \$ 90.00

b) If This Same Parent Works 60 Hours That Week, With The Take Home Amount Of \$1000.00

With The Same Percent Of 18% For The Non-Custodial Parent, That Would Give The Custodial Parent A Check For \$180.00

With How The Child Support System Works Now ,It's Hurting Everyone. If The Non-Custodial Works 40 Hours A Week For 4 Weeks He or She Still Has To Pay The Same Amount ,That For Proposed For Them. If The Non-Custodial Works More Than 50 Hours A Week For Several Months The Custodial Parent Would't Know The Increased Income Amount Until Then Go To Court.

This Will Solve The Issues About Child Support Not Being Based On A 40 Hour Week.
A Percentage Would Regulate The Accurate Amount Base On Hours For That Week.

If You Have Any Questions About My Proposal Please Email Me
